Hi Josh, I hope this email finds you well,

Just a quick update on the status of the project.

We have spent the last few weeks adjusting to the changed circumstances and getting our project in a presentable shape. In lieu of an actual expo, the EECS department will be holding a in-group review of the projects, followed by an optional showcase.

There are few changes to the physical artifacts due to the difficulties brought about by the epidemic. Nevertheless, we are intent on further pursuing our research and conducting further tests throughout the close of the term.

I'll keep you posted on other changes and progress.

Thanks!

Andy
